

Microfiber Cleaning Cloths

The Facts:

- Ideal for patient contact areas, such as countertops and bedside tables
- Colour coding for distinguishing between patient rooms, bathrooms, ICUs, and ORs to reduce the risk of cross-contamination
- Lint-free, split fibre surface that instantly lifts and traps micro-particles, dust, dirt, oils and surface moisture
- Our microfiber cloth is the reusable and durable solution to guaranteeing a thorough and cost-efficient clean
- Very fast drying properties, so plan on a short laundry cycle
- Highly absorbent capabilities, surface build-up is absorbed and wiped away, rather than pushed around
